Exclusive U.S. Distributor for

DS MAREF

DVT-PRO

Medical Grade DVT Prevention

**VTE Risk Remains Beyond Discharge
Extended Prophylaxis is Recommended!
Continuum of Care - Hospital to Home (H2H)**

VTE is Preventable!

DVT-PRO helps reduce risk of post-surgical blood clots | Sequential Intermittent Pneumatic Compression (SIPC) provides simultaneous three (3) chamber *gradient* compression for clinically superior therapy | mimics physiologic flow | relieves venous stasis | enhances fibrinolytic activity

**Improve Patient Outcomes | Reduce Readmissions
Reduce Patient Risk, Decrease Risk of Bleeding, Reduce Liability!**

Safe | Non-Invasive | *Portable*

Convenience = Compliance

DVT-PRO *on the Go!*

DVT-PRO is the **“Cost-Effective” Solution** for Healthcare Providers! Per patient **cost is reduced** to **“Soft-Good”** following device procurement.

DVT-PRO + Aspirin | The Cost-Effective Solution for DVT Prevention!

DVT-PRO’s Auxiliary Port offers variable IPC pressure to **Cryo-Heat** Compression Orthotics (Knee, Shoulder, Hip, Back, Ankle, Elbow, etc.) with a safe malleable, reusable form fitting gel filled **Cryo-Heat** Compression Orthotic Wraps provide effective, efficient therapy without limiting mobility and no messy water & ice.

Reduced Pain + Reduced Edema = *Enhanced Recovery!*
